## DOMINICAN REPUBLIC

The Dominican Republic occupies the Eastern two-thirds of the island Hispaniola and is situated between the Caribbean Sea and the North Atlantic Ocean, bordering east Haiti. The capital Santo Domingo is the New World's oldest capital and contains many colonial buildings which have been carefully restored to retain their original charm. There are many fine examples of 16th century Spanish architecture and many fascinating structures that have survived for over 500 years. Property in the Dominican Republic is very reasonably priced and proving popular with buyers for various reasons. Some look to purchase a piece of paradise for their retirement years and with Dominican Republic property prices more favourable than almost all other similar destinations it is an obvious first choice. With prices so competitive and the perpetual increase in the areas popularity with tourists, investors see property in the Dominican Republic as a safe investment with prices only set to rise and rental potential drastically increasing inline with its popularity.

## LOCALITY

Situated just east of the Gregorio Luperón International Airport, Puerto Plata, the Two Rivers Resort nestles beside a stunning beach on the Islands` Amber Coast. The North coast is a beautifully scenic area with picturesque beaches with a breathtaking mountain backdrop. This 5 star resort will consist of studios, studio suites, apartments, villas, villa suites and luxury villas.
